

EquipHotel Paris: a real success for Hotello

November 15th, 2022

From November 6 to November 10, 2022, Hotello was at EquipHotel trade show in Paris. In only one year, it's already the second participation of Hotello in events dedicated to the hotel industry in Europe. Hoteliers, customers and partners were there to visit Hotello's kiosk!

Company from Quebec, specialists focused on innovation, current and future challenges concerning the hotel industry, a unique concept of augmented reality allowing visitors to learn more about the software and its features, this is what helped Hotello to stand out during this event and to continue its expansion in Europe.
